Ye lords of the factory I'll give you  
no lie

of the little Jack Daw who to  
Spofforth doth fly  
The gold that in India was  
injustly got  
Is now spent in whoredom  
seduction and plot

He's the son of the Indies  
with Solomons power  
Every servant he gets  
he turns to a whore  
But the King of the Creoles  
turns suddenly wild  
at the thought of his ser-  
vant when she proves with

Samuel Cooper  
Horn Rock

The Point of the Lani  
in which my wife  
is laid up to June 8<sup>th</sup> 1830  
Sept 22

Water flows out of a small hole  
in the bottom of a Vessel with  
a velocity equal to that  
which a ponderous Body acquires  
in falling from a height  
equal to the vertical height  
of the surface of the fluid above  
the aperture

3

3

1/2

1

2

3

1837 Mr John Corker

July 10 To 1/2 Doz Ice Knives 46  
By Cash on acct 46

Water flows out of a small hole  
in the bottom of a vessel, and  
the velocity of the water is  
proportional to the square root of  
the height of the water above the  
hole. The velocity of the water  
is also proportional to the square  
root of the diameter of the hole.

The same law holds good  
in lateral motion; for the  
velocity of the water is proportional  
to the square root of the height  
of the water above the hole, and  
also to the square root of the  
diameter of the hole.

The velocity of a fluid flowing  
in a pipe is proportional to the  
square root of the pressure, and  
also to the square root of the  
diameter of the pipe.

This image shows a blank, aged, cream-colored page, likely an endpaper or flyleaf of a book. The paper has a slightly textured appearance with some faint smudges and discoloration, characteristic of old paper. The left edge of the page is bound, and the overall tone is a warm, off-white or light beige.

Mr Thompson York

238 Mr. Thompson  
69 Sir, I am informed. Cass  
has intended to come to your  
see if he can settle with you  
with you I have to say  
shall not be satisfied unless  
he pays the Debts with the over-  
plus with which he can be  
satisfied. He has a share in  
the Bank which I have  
a share of he does not. In  
a better situation, I would  
have been very glad to  
have him. But if he  
will not accept of you, he  
will not. I have no objection  
the house is copy right of  
the manner of the house.  
I beg you will not in the least  
stay of proceedings for you will  
find him.

a complete sufferer

Sir

54

I have at Benson

The Debt has called upon me with Copy Writ of Summons you have caused him to be served with herein claiming a Debt of 13.. 5.. 4 to be due from the Debt to the Plt— on the contrary of this being the case the Plt actually stands indebted to the Plt Debt in the sum of 12.. 8 after giving him credit for the above sum of 13.. 5.. 4 with some other little payments payable the particulars of this act of the Debt amounting in the whole to 29.. 7 the Plt knows to be correct and that he stands indebted to Debt as above.

I thought it best to give you this explanation as no doubt the Plt has imposed upon you in order that you may

be aware of the nature of this  
case as no doubt the Plt as  
imposed upon you & in  
all probability he will in  
a very short time be off to  
America, however I shall  
certainly defend this suit  
if you proceed to Delar, but  
I shall hope after this expla-  
nation you will make some  
further inquiry with respect  
to the file who is a well  
known character here -

It may be necessary to say  
that he married the Deft's  
sister & the cause of this  
proceeding is that the Deft  
detained some little time  
ago for an arrear of Rent due  
to him from the Plt & in  
order to frighten him into  
some measures or other

He has got you to commence this action altho he well knows that he stands indebted to the Defr in the sum of 14.8 in balance of acct between them. If you determine to proceed if you send your notice of Declor to me I will accept service of it & appear & plead to the action in behalf of the Defr.

I am Sir Yours &  
 O Taylor  
 Kneestrough  
 27 Dec 1837

Mr Luke Thompson  
 Sol York

In my answer to your letter  
latter I will state facts and  
you as giving them there  
named by me and I will say  
to you I say frankly it is false  
that you yourself intended  
so. You then go on and say  
that we should imposed upon  
and that in our part  
there is a short time off to me  
to the first I would have  
been not imposed upon  
in fact a thing for you  
along with the fact of  
that for your part  
and with the fact of  
I would have been  
in your part of the  
fact of the fact  
to the fact  
that I am  
at liberty to go on

10 50 0. 6 0

1,046,134

carry me and at the same time  
I will tell you of place before  
I finish this letter, even within  
your own township, and I feel  
you cannot not think I am  
wrong. You must say that  
you are a sweet natured character  
and I know in I at once hope  
you will think and over the whole  
of life of your acquaintance to  
escape me with any action  
I ever took which would be  
be considered as a honest  
man - if you do know of any  
thing of the sort give it to me  
and put it under steps and I will  
be sure to find it. How my Dear  
Mr Taylor do you have had the  
best of the day and more to me

pray see are you. The same  
 Peter Taylor who was  
 a collected individual for the  
 removal of class and a lot  
 time allotted to a person  
 at the clerk for which  
 stopped double and more  
 when he was looking for  
 me in a place and he  
 picked up a letter from  
 the Rev. and I  
 have also seen the Rev.  
 he was allowed a place  
 position.

24 Class Cryptogamia The parts of  
 Fruclification of this class of  
 plants is very little understood

17 8 1½

Class 1 Monandria 2 Diandria 3 Tri- 4 Tetra-  
5 Pent, 6 Hex, 7 Hept, 8 Oct, 9 Enne,  
10 Dec, Dodec, 12 to 19 Stamens, 12 Pcos,  
20 Stamens or more, inserted into the Calyx or  
Corolla, not on the Receptacle immediately  
Here the situation and not merely the <sup>the</sup> num  
of the stamens is considered - 13 Poly, The  
stamens are numerous, more so than in the  
last Class, and are inserted into the Receptacle  
14 Didynamia has four stamens, 2 of which  
are longer than the others - 15 Tetradynamia  
6 stamens 4 longer than the other two -  
16 Monodelphia. The stamens are united  
by the filaments into one tube - 17 Diadelph.  
Stamens united into two parcels, both, some  
times cohering together at the Base. The  
flowers of this class are called papilionaceous  
or butterfly shaped - 18 Polyadelphia. The  
stamens united into several sets or parcels -  
19 Syngenesia. The stamens are united by the anthers  
into a slender - 20 Gynandria. The stamens  
are united with, or grow out of, the pistillum or pointal  
21 Monoecia. The stamens and pointal are in  
separate flowers both growing on the same plant  
22 Dioecia. The flowers which bear the stamens  
are on one plant and those with the pointal  
on a separate plant 23 Polygamia. The stamens  
and pointals in some flowers are ~~to~~ together, in others  
separate, either on the same plant, or on two  
or three different ones
